White Oak + Flicker

Designers infused modern warmth into an unfinished loft environment with translucent 3form Wood. By specifying Flicker, a new laser-cut pattern from 3form, the team added a fresh and contemporary lighting effect.

3form SUSPEND™

New anchoring options for ease of installation

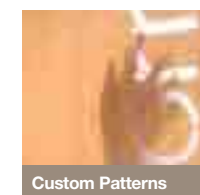

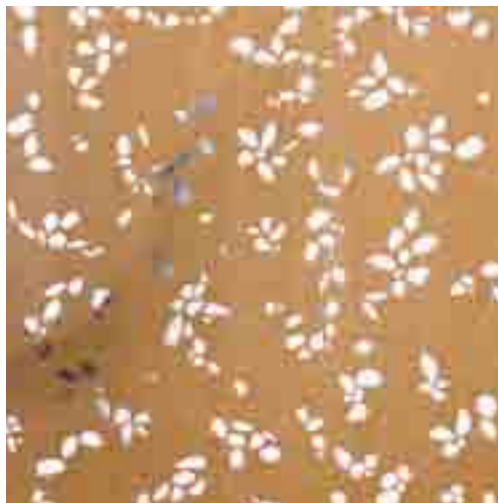

Smooth Panel Connector

Unique sleek components blend seamlessly into any contemporary environment

Patterns

Specify 3form Wood with any of our innovative laser-cut patterns. Designs vary from soft and floral to geometric repeats.

Custom Patterns

Customize your laser-cut Wood with custom patterns, corporate logos or unique icons.

You Create®

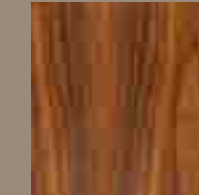

Experience the freedom of customization from concept to installation. With You Create, you can customize your material, see your customized material in full panel length and then visualize it in a space.
